Hungary

www.emsz-kompozit.hu

The Hungarian Association of the Manufacturers of Reinforced Plastic Materials (EMSZ), is pleased to invite you to participate in its

REINFORCED PLASTICS 2008

International BALATON Conference,

to be held in Keszthely on

May 20-22 2008

The **aim of the Conference** is to present the most recent technical, scientific and economical results in manufacturing, processing and application of reinforced plastics products, with special reference to the following topics:

- raw materials
- processing technologies
- properties and testing of products
- new fields of application
- environmental protection, recycling
- market information
- new materials, companies, activities
- science / research

The Organizing Committee would be most happy to welcome the **attendants**, i.e. manufacturer of raw materials (matrix materials, reinforcements), auxiliary materials, processing machines and testing equipment as well as processors, distributors, developers, users, R&D experts, and environmentalists in every branch of this field.

Speakers are expected for the above topics with presentations of about 20 minutes.

The official languages of the Conference will be English and Hungarian. Simultaneous interpretation will be provided.

Speakers are requested to submit a summary of one page to the organizing secretariat not later than **31 January 2008**. Acceptance of the presentation will be announced. In order to print Conference Proceedings well in time, the full text (final form in electronic way, Word Format) is kindly requested by **28 February 2008** at latest.
